

HSBC Multi-Assets Defensive Fund

DAF Quarterly Factsheet

30 June, 2021

Profile: The fund seeks to achieve capital growth in the medium to long term with emphasis on capital preservation (capital is not guaranteed) and limited exposure to equity markets. The fund invests in a range of shariah compliant investment funds such as trade finance, sukuk fund, local equity, international equity as well as direct investments in order to achieve its objective.

Asset Allocation Guidelines: The HSBC Multi-Assets Defensive Fund is a low to medium risk portfolio that mainly invests a high percentage of its assets in Murabaha trade finance funds/Sukuk Fund and a small percentage is allocated to shariah compliant equity funds. Equity exposure is restricted to 30%.

HSBC Saudi Arabia has issued this document for information purposes only. This document is not and should not be construed as an offer to sell or solicitation of an offer or an advice to purchase or subscribe in any investment. Any member of the HSBC SA, directors, officers and employees may have traded for their own account as principal, underwritten an issue within the last 36 months, or have a long or short position in any related instrument mentioned in this material.

Prior to entering into a transaction or if you require investment advice or wish to discuss the suitability of any investment and trading decision, you should seek such investment, financial, legal or tax advice from your professional advisers as appropriate not upon any view expressed by HSBC Saudi Arabia. All information and statistical data in this document are up-to-date as of 30 June 2021. Information and statistical data in this document were obtained from sources or third parties, which HSBC Saudi Arabia believes to be reliable but which it has not independently verified.

HSBC SA makes no guarantees, representations or warranties and accepts no responsibility or liability as to its accuracy or completeness of all information and statistical data or for not achieving any mentioned returns and does not take responsibility of any losses incurred by investors HSBC Saudi Arabia might submit over the past twelve months services to issuers or securities-related, in which Funds may invest from time to time. Expressions of opinion in this document are subject to change without notice. Any projection, forecast, estimate or other 'forward-looking' statement in this document only illustrates hypothetical performance under specified assumptions of events or conditions, such projections, forecasts, estimates or other 'forward-looking' statements are not reliable indicators of future performance. As with any mathematical model that calculates results from inputs, results may vary significantly according to the values input. Prospective investors should understand the assumptions and evaluate whether they are appropriate for their purposes.

This type of investment may not be suitable for all types of investors and it may involve substantial risks (but are not limited to) When an investment is denominated in a currency other than your local or reporting currency, changes in exchange rates may have an adverse effect on the value, price or income of that investment, so the investment value is changeable and may increase or decrease and it may be difficult for investors to sell their investments or converted into immediate cash.

Therefore the investor should visit the risk warning section in Terms and Conditions or other relevant and appropriate risk disclosure document, for more details about the risks relating to the Fund and it should be read before proceeding with any investment. All fees and charges are applying in the Terms and Conditions and you can get them for free and for more details you can visit any HSBC SA centers or through our website www.hsbcSaudi.com. Also you can get the financial reports of the fund by visiting www.tadawul.com.sa site.
