## Independent auditors' report

**To: The Unitholders of  
HSBC Saudi Financial Institutions Equity Fund  
Riyadh, Kingdom of Saudi Arabia**

### Opinion

We have audited the financial statements of **HSBC Saudi Financial Institutions Equity Fund** ("the Fund"), which comprise the balance sheet as at 31 December 2017, statement of income, cash flows and changes in net assets attributable to the unitholders for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at 31 December 2017, and its financial performance and its cash flows for the year then ended in accordance with generally accepted accounting standards as issued by Saudi Organization for Certified Public Accountants (SOCPA).

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the HSBC Saudi Financial Institutions Equity Fund in accordance with the professional code of conduct and ethics that are endorsed in the Kingdom of Saudi Arabia that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Responsibilities of management and those charged with governance for the financial statements

HSBC Saudi Arabia, ("the Fund Manager") is responsible for the preparation and fair presentation of the financial statements in accordance with generally accepted accounting standards as issued by SOCPA and the Investment Fund Regulations as issued by the Capital Market Authority and for such internal control as the Fund Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Fund Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Fund Manager either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

The Fund Board is responsible for overseeing the Fund's financial reporting process.

## Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. 'Reasonable assurance' is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Fund Manager.
- Conclude on the appropriateness of the Fund Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, then we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit of **HSBC Saudi Financial Institutions Equity Fund** ("the Fund").

### NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2017

(Amounts in Saudi Arabian Riyals)

#### 13. FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the amount for which an asset could be exchanged, or a liability settled between knowledgeable willing parties in an arm's length transaction. Financial instruments comprise financial assets and financial liabilities.

The Fund's financial assets consist of held for trading investments, a bank balance and other receivable whilst its financial liabilities consist of other liabilities.

Held for trading investments are carried at fair value. Fair value is derived from the observable market prices listed on international stock exchanges. The fair values of other financial instruments are not materially different from their carrying values.

#### 14. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Fund manages its investment portfolio and other assets by monitoring the return on net assets and makes adjustments to its investment policy in the light of changes in market conditions.

The Fund maintains position in financial instrument as dictated by its investment policy. All investments are "held for trading" investments. The Fund is exposed to credit risk, equity price risk, liquidity risk.

##### *Special commission rate risk*

Special commission rate risk arises from the possibility that changes in market commission rates may affect either the fair value or the future cash flows of the financial instruments. The Fund is not exposed to special commission rate risk.

##### *Credit risk*

Credit risk is a risk that one party to a financial instrument may fail to discharge an obligation and cause the other party to incur a financial loss. The Fund is exposed to credit risk on its bank balance, investment portfolio and other receivables. The fund manager seeks to limit its credit risk by dealing with creditworthy counter parties and setting limits for individual investments. Further, the bank balance is with a bank that has a good credit rating.

##### *Equity price risk*

Equity price risk is the risk that the fair value of equity investments decreases as a result of changes in the levels of equity indices and the value of individual stocks

The Fund Manager endeavors to minimize the risk through diversification across various sectors of the Saudi equity market. Further, the Fund Manager has established risk guidelines to manage its equity price risk.

##### *Liquidity risk*

Liquidity risk is the risk that the fund will encounter difficulty in releasing funds to meet commitments associated with financial liabilities. The Fund's terms and conditions provide for the redemptions of units twice weekly and it is, therefore, exposed to the liquidity risk of meeting Unitholders' redemptions. The Fund's investments are considered to be readily realizable as they are all listed on the Saudi equity market.

The Fund Manager has established certain maturity and liquidity guidelines for the Fund to ensure sufficient funds are available to meet any commitments as they arise. There are no funds drawn by the fund under the credit line with the bank as at balance sheet date.
